

Dear Kaia,

As an organization striving to do good in your community, we at Path-Now are here to help you to grow and reach new clients.

What is Path-Now?

Path-Now is a mobile application that effortlessly connects organizations to thousands of potential clients (with disabilities) who could benefit from your services.

Our unique platform helps people with disabilities find organizations like yours, that are accessible, inclusive, and provide services that they genuinely *need*. By signing up for the Path-Now program you'll provide valuable support to your community.

As a Path-Now partner, we'll list your organization on our platform where people with disabilities can find your organization and start using your services immediately. You will also receive FREE training and support to make your organization even more accessible and inclusive.

Joining Path-Now is Super Simple & Budget Friendly!

To get started follow these 3 simple steps:

1. Visit our [website](#) to "claim" your organization or create a new account.
2. Select a subscription option that fits your budget.
3. Complete your organization's profile and get ready to meet your new clients!

Independent living fosters confidence and positive mental health outcomes for those living with disabilities. Don't miss this opportunity to expand your organization's reach and help those with disabilities access the services they need.

Ready to See Who You'll Match With? [Sign-up for Path-Now Today!](#)

We look forward to welcoming you to the Path-Now community.
